K1 Lube Grease EP

Multipurpose EP Grease

NLGI 000 / 00

DESCRIPTION

K1 Lube Grease EP is a semi-fluid type grease containing lithium thickener, mineral base oil, EP additives, rust and oxidation inhibitors, for use in centralized lubrication systems and concrete pump cars.

APPLICATIONS

- Concrete pump cars
- Centralized lubricating systems
- Application where EP semi-fluid grease is required

Usable temperature range in continuous service is : -30 to 120°C

CUSTOMER BENEFITS

Long Service Life
Excellent oxidation stability makes long service life.

Anti-wear Property
Good anti-wear property prevents from wear and tear on equipment.

Good Pumpability
Good pumping properties allow pumping even at low temperatures.

Rust and Corrosion Protection
Rust and corrosion inhibitors protect equipment from rust and corrosion..

KEY PROPERTIES

NLGI Grade	000	00
Dropping Point, °C	164	183
Oxidation stability, kgf/cm^2	0.35	0.35
Copper Corrosion @ 100°C, 24h	No Tarnish	No Tarnish
Penetration, Worked @ 25°C	460	417
Evaporation loss, wt%	0.30	0.35
Package (kg)	15	15
